

Hopeful New Perspectives and Possibilities

Creating a Bold New Future

Join us to explore a new global vision
Built on Sustainability, Spiritual Fulfillment
and Social Justice.

Featuring video insights from inspiring **philosophers, scientists, community leaders** and more.

Attend the **Awakening the Dreamer Changing the Dream Symposium** and come together with conscious, aware people who care about what's happening in the world, our community and with our families. We'll look at our biggest challenges and opportunities today: 1)The state of our industrial world and the cultural beliefs that got us where we are today. 2)A new dream—new ideas about what really matters—leading to deep connection and surprising solutions, 3)How you can be part of what's emerging – because you already are!

This symposium is hosted by **Transition Amherst**. A Transition Initiative is a community-led response to the pressures of climate change, fossil fuel depletion and economic instability. This is the perfect time to “awaken” your heart to sustainability issues and join with others to transition to a more resilient community. There will be time at the end of the symposium to discuss Transition Towns in general and **Transition Amherst** specifically.

Sunday, Sept. 26, 2010

Arcadia Wildlife Sanctuary
127 Combs Rd
Easthampton, MA 01027

Registration: 12:30 - 1:00 PM

Symposium: 1:00 - 5:30 PM
