

Transition Amherst Invites you to  
a FREE screening

## THE FARMER AND THE HORSE

Tuesday June 12th  
7:00 pm

Bangs Community Center  
Room 101

Followed by Q&A with local  
farmers that use draft horse  
power

From award-winning journalist Jared Flesher comes *The Farmer and the Horse*, a film that digs into difficult questions about sustainability, self-sufficiency, and why we do the work we do. Flesher's film goes beyond the usual platitudes of smiling organic farmers talking about the good life. Farming is hard work, especially if you don't use a tractor.

This is a documentary every young farmer should see. So should everyone who cares about land use, the environment, and good food.
